

WALLEN

Heat treated, tempered alloy steel provides high strength and resistance to rotational distortion.

Rotates to 270° to a firm stop for better torquing and access.

Specially contoured handle for better feel and control.

Rugged Duracast® case provides unmatched durability.

All hex keys are precision formed to exact dimensional tolerances for precise fit.

Hex, Ball End and Torx® make up the most complete line of key configurations available.

MADE IN
USA

All hex keys are precision formed to exact dimensional tolerances for precise fit.

Heat treated, tempered alloy steel provides high strength and resistance to rotational distortion.

Cushion-Grip provides large cushion handle for more torque and comfort.

All hex keys are precision formed to exact dimensional tolerances for precise fit.

Heat treated, tempered alloy steel provides high strength and resistance to rotational distortion.
